REPORTED BY MR. CHILTON.

IN THE SENATE OF THE UNITED STATES,
July 9, 1914.

Resolved, That the communication from the Secretary of Agriculture, in response to the resolution submitted by Mr. Kenyon and adopted by the Senate on April first, nineteen hundred and fourteen, calling for information in regard to the relation of the General Education Board of the Rockefeller Foundation to the work of the Department of Agriculture, be printed as a Senate document.

Attest:

JAMES M. BAKER, *Secretary.*

D. OF D.
JUL 20 1914

ROCKEFELLER FOUNDATION.

APRIL 3, 1914.

The Vice President of the United States and President of the Senate.

SIR: I have the honor to transmit the information requested and directed to be furnished to the Senate by resolution adopted April 1, 1914, concerning—

1. The relation, if any, of the organization known as the General Education Board of the Rockefeller Foundation to the work of the Department of Agriculture.
2. The names and positions of all employees, if any, of the department whose salaries are paid in whole or in part with funds contributed by the Rockefeller Foundation.
3. The names and positions of all administrative officers, if any, of the department who are in any way connected with the work of the General Education Board of the Rockefeller Foundation.
4. Salaries, if any, received by them from the said Rockefeller Foundation.

The General Education Board is a corporation created by a special act of the Congress approved by President Roosevelt January 12, 1903, having as its object the promotion of education within the United States of America, without distinction of race, sex, or creed.

About the time of the incorporation of the General Education Board a serious emergency was presented in the Southwest by the ravages of the cotton-boll weevil. The Congress on January 15, 1904, made an appropriation which permitted the expenditure of $250,000 for meeting the ravages of the weevil, including demonstration work. The demonstration work met with immediate success and attracted the attention of the General Education Board. The board expressed its desire to cooperate and offered to place at the disposal of the department additional funds for extending the work.

On April 20, 1906, after a full discussion, a memorandum of understanding was entered into between the Department of Agriculture and the General Education Board for cooperation in extending the farmers' cooperative cotton demonstration work. The agreement provided, in brief, that the work financed by the General Education Board should be distinct in territory from that carried on solely by the Department of Agriculture and that this work should be separately financed. Under the terms of the agreement the General Education Board undertook to pay the expenses directly and indirectly incurred in conducting the demonstration work in the extended territory, and the department agreed to supervise the work and to appoint all special agents for the extended territory. It was also agreed that the agents should be under the control of the department in every respect as fully as any other agents of the department.

It was distinctly understood that the department was to be in no way responsible for the handling of the funds provided by the General Education Board, and that the department would under no consideration join with the board in payment of salaries of employees except to the extent of a nominal collaborator's salary of $1 per annum, which was necessary and essential in order to secure the franking privilege.

The agreement referred to has been the basis of operations since 1906. The arrangement with the General Education Board has been

called to the attention of the committees of Congress in the reports of the Secretary or in the reports of the Bureau of Plant Industry, or in the public hearings before the committees each year since the work was undertaken. For the last fiscal year the board appropriated approximately $250,000 for this work. The greater part of this appropriation has been used for general demonstration work in the States of North Carolina, South Carolina, north Georgia, Virginia, West Virginia, and Kentucky. About $75,000 of the amount has been devoted to girls' canning and poultry club work in all the Southern States.

The plans for the entire work are made by the department. In conducting that work the department, as in other cases wherever practicable, has entered into close relations with the State colleges of agriculture, and part of the salaries of the agents are paid from State or county funds, or both, and part from the General Education Board funds. In making its appointments the department has in such cases cooperated with the State college.

There is appended hereto a statement giving the names of persons employed in farmers' cooperative demonstration work whose salaries are paid in whole or in part by the General Education Board. The part of the salary not so paid, with the exception of the collaborator's salary of $1 per annum paid by the department, is paid, as has been indicated, by the State or county, or some other local organization. The statement gives, first, the names of the employees; second, the amount per month paid by the General Education Board; third, the amount paid by the State; fourth, amount paid by county or local authorities; fifth, the nominal sum paid by the department; and, sixth, number of months employed each year.

Mr. Bradford Knapp is the administrative officer of the department who handles all the farmers' cooperative demonstration work in the South. As director of all the administrative work he has charge of the force of collaborators who are paid in whole or in part by the General Education Board. He receives no salary from the General Education Board.

In March, 1913, the Congress made an appropriation for the study of marketing, and it also made an appropriation for the study of rural credits in Europe. It appeared desirable that if possible there should be an investigation of the forms of cooperation in the United States, of the problems of rural organization, and especially of the facts relating to farm credits. These problems are interwoven with the marketing problems and with the rural-credit inquiry abroad. It was suggested that it was important that the department institute inquiries concerning these problems while it was investigating marketing in this country and rural credits abroad. The department at the time had no funds available, and the General Education Board, learning of the situation, offered to extend its financial cooperation, and the department entered into an agreement by which funds were placed at its disposal for the study of cooperation, including rural credits and the general organization of rural communities for economic, social, and educational purposes. The department agreed to have a director in charge of this work who should be approved by it and whose work should be directed by it, and Dr. Thomas Nixon Carver, of Harvard, was selected. It was agreed to make him and four other necessary investigators collaborators, paying them a nominal salary of $1 per

month or per annum, as indicated below, so as to make it possible for them to use the frank:

	Amount per month paid by General Education Board.	Amount paid by the Department of Agriculture.
Carver, T. N	$625.00	$1 per month.
Goddard, L. H	333.34	$1 per annum.
Thompson, C. W	333.34	$1 per month.
Buttrick, P. A	150.00	$1 per month.
Moran, J. S	125.00	$1 per annum.

The department also selected 12 professors of economics in agricultural colleges or universities in the country and made them collaborators with the nominal compensation of $1 per annum, so that they might use the Government frank. Their names are:

Prof. C. B. Austin, University of Texas, Austin, Tex.

Prof. Charles Lee Raper, University of North Carolina, Chapel Hill, N. C.

Prof. L. D. H. Weld, University Farm, St. Paul, Minn.

Dean Leon S. Merrill, University of Maine, Orono, Me.

Prof. W. O. Hedrick, State College, East Lansing, Mich.

Prof. Samuel D. Gromer, University of Missouri, Columbia, Mo.

Prof. G. O. Virtue, University of Nebraska, Lincoln, Nebr.

Prof. George Thomas, Agricultural College, Logan, Utah.

Prof. A. W. Taylor, Washington State College, Pullman, Wash.

Prof. C. B. Williams, Iowa State College, Ames, Iowa.

Prof. Alexander E. Cance, Massachusetts Agricultural College, Amherst, Mass.

Prof. Morton A. Aldrich, Tulane University, New Orleans, La.

The traveling expenses of these men were paid by the general education board.

It made a similar arrangement with Dr. Lillian Johnson, of Memphis, Tenn., and Miss Ernestine Noa, of Lookout Mountain, Tenn.

The following persons are employed as clerks under Dr. Carver, their salaries being wholly paid by the general education board. They are not collaborators of the department.

	Salary per month.
Daisy F. Fridley	$85
Chastina Gardner	85
May F. Murphy	85
Catherine M. Viehmann	85
Myrtle Wells	85
Kenneth Creswell	40
John Donahue	50

The total amount appropriated by the general education board for this purpose has been $37,166.66.

On December 31, 1913, it was agreed that this arrangement should terminate on June 30, 1914.

If for any reason the Congress should conclude that this farmers' demonstration work carried on in cooperation with the general education board since 1906 should be discontinued, the work in the South will have to be curtailed accordingly or an appropriation from the general revenues of $250,000 will be required.

Respectfully,

D F. Houston, *Secretary.*
